What do you think of about Step One College?

My first impression was very friendly school. I like my school.

What class did you begin in? Intermediate Class

What class did you finish in? IELTS

How has your English improved?

I have been studying English about a half year. When I started studying here, I couldn't speak English but I became to be able to speak English better. However English is too hard. Especially writing and reading, I have to practice more.

Please write about your impression of your course?

It is unbelievable that I can study IELTS by completing General English. Because General English and IELTS are totally different, I think IELTS lesson is too harsh for me now, but I want to catch up with my classmates!
